## LCI Congress Owner Scholarship application

LCI understands and appreciates the importance of Owners involvement in the LCI Congress. Recognizing the challenge that many owner organizations have in extending support in the form of funding for their employees to pay for registration and travel costs to attend industry conferences and training sessions, the LCI board has authorized limited funding to underwrite at least some of the expenses related to owner attendance at the annual LCI Congress, October 5-6, Chicago. If you are directly employed by an owner organization (vs. owner's representative) and are interested in attending Congress but challenged to find the budget support to do so, you may consider applying for funding under the LCI scholarship program. Please complete the application below and you will be contacted by the Congress planning team once it has had the chance to evaluate your application.
