LEAN DESIGN 101

LEARNING OBJECTIVES
1. How to collaborate with trade and construction partners in Design
2. How to design and develop Target Value Design sessions
3. How to interactively coordinate real-time pricing with Design
4. How to fully participate in the design and delivery of projects at the target budget

TARGET VALUE DESIGN SIMULATION WORKSHOP

This program will introduce Lean Project Delivery as an "operating system" based on principles and use of appropriate tools. Participants will learn that Lean is about understanding value and eliminating waste. The overview will focus on the fundamental principles and tools of Lean. Understanding value in a project and eliminating waste is a continual cycle of inspection and improvement. Value stream mapping, Little Kanban, and Value-focused tools will be presented and demonstrated using a real case study. The workshop includes a practical exercise to apply the tools and concepts. Participants are encouraged to bring a project they would like to apply the tools to. This workshop is designed for Architects, Designers, Engineers and Construction Practitioners who desire to use Lean tools and techniques to improve project delivery.

**Presented by:**

**Dick Bayer, ReAlignment Group**

**Target Audience:**

The program is intended for Design Professionals, Project Delivery Professionals, Owners, and Company Executives who are looking for improved project delivery and better value to owners.

**Program Details:**

- **Duration:** 1 day
- **Location:** Los Angeles
- **Dates:** June 17–18, 2015
- **Format:** Mix of lectures, discussions, exercises, and simulation workshops

**Contact:**

- **Email:** info@realignco.com
- **Website:**www.realignco.com

**Additional Notes:**

- The program is designed for professionals who have a basic understanding of Lean principles and tools.
- Attendees will receive a comprehensive workbook with case studies and exercises.
- The program is endorsed by the Construction Leadership Council (CLC) and the Associated General Contractors of America (AGC).
