

Lean construction and carbon reduction

2 July 2008, London

Forthcoming Events

Invitation to the Broadgate Tower
27 May 2008, London

Life costing - what you need to know
26 June 2008, London

Health and Safety good practice on site
3 July 2008, London

Mercedes Benz (Brooklands) visit
17 July, 2008, Brooklands, Weybridge

For more information about forthcoming events, please visit www.cpn.org.uk and www.cief.org.uk

CPD

Each day course has a value of 2 hours towards your CPD

Venue

CIRIA, Classic House
174-180 Old Street
London EC1V 9BP

Course fees

CPN/CIEF/CIRIA CORE Free
Non members £80+VAT (£94)

How to book

Complete and fax the form overleaf to CIRIA on +44(0)20 7253 0523

or

call the events team on +44(0)20 7549 3300

or

register online at www.cpn.org.uk

Background

In 1998, the Egan report championed the philosophy of lean construction as a way for the industry to become more efficient, more productive, and less polluting. Ten years on, with the advent of the climate change agenda, does lean hold the key to not only more efficient, but also cleaner construction?

Lean construction aims to minimise waste, not just of materials, but also time and energy. This can save you money as well as helping the environment.

This event will provide an introduction to lean construction from leading world experts, giving case studies of lean construction and carbon reduction initiatives, as well as investigating links between the two.

Why you should attend

This workshop will be of interest for those who wish to:

- learn about lean construction
- hear quantified results from lean construction case studies
- find out whether there is an easier way to reduce carbon emissions from construction
- balance carbon reduction commitments with other operational issues
- debate whether lean provides a feasible approach to carbon reduction for construction

Programme

13.30	Registration and refreshments	15.10	Lean construction, sustainability and the waste:carbon link Uly Ma, Greenfile Developments
14.00	Chairman's introduction	15.30	Carbon reduction: case study Dan Epstein, ODA
14.10	About lean construction Ali Mafi, LEAN Thinking Ltd.	15.50	Panel discussion session
14.30	Lean construction: practice and case study Richard O'Connor, Thomas Vale	16.40	Chairman's summing up
14.50	Networking break with refreshments	16.45	Close

CPN

CPN provides members with a range of interactive workshops and events led by some of the industry's foremost practitioners. Attended by many of the construction industry's leading managers, CPN continues to promote the sharing of knowledge across all facets of the construction sector.

CIEF

The Construction Industry Environmental Forum, aims to improve the sustainability performance of all parties involved in construction. It provides an opportunity to network with members and other experts in a crossindustry forum. Membership currently includes over 200 leading construction organisations and the success of the CIEF has encouraged participation by thousands of individuals.

Further information

For further information on CPN and CIEF memberships, outputs and forward programme, please contact the events team at CIRIA:

Tel: 020 7549 3300

Fax: 020 7253 0523

Email: enquiries@ciria.org

Web: www.cpn.org.uk

The CPN and the CIEF are owned by CIRIA with support from an industry based steering group.
