How We Help

1: Real-time, cloud based job boards show where everyone is working.

Drag-and-drop functionality allows for quick and easy updates.
How We Help

2: Provide multi-day views of your assignments and needs to improve scheduling, planning and forecasting.

Holds all history and lets you plan out into the future as far as you’d like.
3: All of your PEOPLE in one place.

Current employees and past employees, with all contact information, skill level, trainings, certifications, and entire work history.
How We Help

4: All of your PROJECTS in one place.

Current projects, past projects and pending projects with all relevant information.
How We Help

5: Employee and Project profiles to log, monitor and display all relevant information

Activity Feed (logs everything, date & time stamped)
How We Help

6: Manpower Requests: A simple way to consolidate all upcoming manpower needs in one spot.

Users with reduced permissions can create, but only Admin and Managers can fill.
Automated dispatching and assignment alerts send text messages and emails to all impacted individuals - eliminating unnecessary and redundant phone calls.
