TRAINING LEADER: DOUGLAS LEE

Douglas Lee is a Vice President and Regional Preconstruction Director with Brasfield & Gorrie. He leads two estimating departments of approximately 35 estimators and helps champion lean and innovative delivery models within the company. He started in the construction industry in 1995, beginning his lean journey in 2007 on the Texoma Medical Center, being challenged constantly by Bill Seed and a team from Lean Project Consulting. Douglas graduated with a Bachelor of Science degree in Building Construction from Auburn University and has been involved with estimating, coaching and facilitating over 20 ILPD projects through preconstruction efforts. Currently, Douglas lives in Birmingham, AL with his wife, Jennifer, of twenty-one years and three children.
