Feb. 28, 2020

VisitDallas is closely monitoring the news surrounding the new coronavirus (COVID-19).

We care about the health and safety of our clients and partners, and therefore are in close contact with the U.S. Travel Association and the Dallas County Health & Human Services (DCHHS) about ongoing developments and how our industry can be constructive partners to current efforts. The Kay Bailey Hutchison Convention Center Dallas prepared and equipped with hand sanitization stations.

As of Feb. 28, 2020, there have been no confirmed cases of the novel coronavirus in Dallas County, and the health risk to the general public remains low.

Visitors should continue to engage in their regular activities and practice standard hygiene and illness prevention methods.

The following preventive measures should be taken to help reduce the spread of COVID-19:

- Stay home when you are sick.
- Wash your hands with soap and water for at least 20 seconds or an alcohol-based hand sanitizer with at least 60% alcohol.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Please visit the DCHHS Novel Coronavirus webpage for FAQs and other resources, as well as the Centers for Disease Control and Prevention (CDC) website.
